Tornado in a Junkyard: The Relentless Myth of Darwinism James Perloff

In an easy-to-read text, this book examines growing scientific evidence that is challenging Darwin's theory of evolution: lack of transitional forms in the fossil record, the impossibility of mutations (almost universally destructive) serving as evolutionary building blocks, the bad logic of natural selection theory, the stunning lack of evidence for "ape-men," the mathematic impossibility of life beginning by itself, more. Also explores how Darwinism helped foster Hitler's racial policies and examines how Inherit the Wind grossly misled Americans about the Scopes trial. Addresses the ever-vital question: Are we here by chance or are we created by God? Indexed, over 80 illustrations, hundreds of quotes from scientists.
