Statistics: Informed Decisions Using Data, Books a la Carte Edition (4th Edition) Michael Sullivan III
This edition features the exact same content as the traditional book in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook.

Mike Sullivan regularly teaches introductory statistics, and this experience has helped him develop a understanding of what today's students need to succeed in the course. **Statistics: Informed Decisions Using Data, Fourth Edition**, provides tools that help students see the bigger picture and make informed decisions. In addition, Mike's contributions to the supplements and technology program make it easier to teach a multi-dimensional, engaging course.

The book offers new features that take advantage of statistical software, so students can focus on building conceptual understanding rather than memorizing formulas. A new example structure offers a bridge between by-hand solutions and the use of technology, and updated technology support appears in each chapter. All the resources—including the author's Camtasia Studio® videos that respond to student questions and his national survey data in StatCrunch—were created for Mike's classroom and are available for use in yours, to help students succeed and stay engaged.

Richard Rodriguez:

As a scholar exactly feel bored to be able to reading. If their teacher asked them to go to the library or to make summary for some e-book, they are complained. Just very little students that has reading's spirit or real their hobby. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that reading is not important, boring as well as can't see colorful images on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Statistics: Informed Decisions Using Data, Books a la Carte Edition (4th Edition) can make you truly

feel more interested to read.
