Loose Leaf Version of Essentials of Anatomy & Physiology with Connect Access Card Kenneth Saladin, Robin McFarland

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective.

Essentials of Anatomy & Physiology is a text that blends up-to-date science, stimulating writing, high-quality art, and cutting-edge educational technology to provide the most effective teaching and learning program available in the one-semester anatomy and physiology courses.

The distinctive pedagogy of the text revolves around the theme of “Elevate Learning”. From “Base Camp” to “Assess Your Learning Outcomes”, the student experiences a clear sense of the path ahead, a convenient means of charting progress, and a satisfying sense of accomplishment at the end.

Essentials of Anatomy and Physiology is accompanied by Connect® and LearnSmart™, authored by Steve Sullivan to reflect the content and style of the textbook authors, and to help foster clarity for students.
