King of Infinite Space: Donald Coxeter, the Man Who Saved Geometry Siobhan Roberts

"There is perhaps no better way to prepare for the scientific breakthroughs of tomorrow than to learn the language of geometry." ?Brian Greene, author of *The Elegant Universe*

The word "geometry" brings to mind an array of mathematical images: circles, triangles, the Pythagorean Theorem. Yet geometry is so much more than shapes and numbers; indeed, it governs much of our lives?from architecture and microchips to car design, animated movies, the molecules of food, even our own body chemistry. And as Siobhan Roberts elegantly conveys in *The King of Infinite Space*, there can be no better guide to the majesty of geometry than Donald Coxeter, perhaps the greatest geometer of the twentieth century.

Many of the greatest names in intellectual history?Pythagoras, Plato, Archimedes, Euclid? were geometers, and their creativity and achievements illuminate those of Coxeter, revealing geometry to be a living, ever-evolving endeavor, an intellectual adventure that has always been a building block of civilization. Coxeter's special contributions?his famed Coxeter groups and Coxeter diagrams?have been called by other mathematicians "tools as essential as numbers themselves," but his greatest achievement was to almost single-handedly preserve the tradition of classical geometry when it was under attack in a mathematical era that valued all things austere and rational.

Coxeter also inspired many outside the field of mathematics. Artist M. C. Escher credited Coxeter with triggering his legendary Circle Limit patterns, while futurist/inventor Buckminster Fuller acknowledged that his famed geodesic dome owed much to Coxeter's vision. *The King of Infinite Space* is an elegant portal into the fascinating, arcane world of geometry.

From reader reviews:

Brandy Greenawalt:

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite book and reading a book. Beside you can solve your condition; you can add your knowledge by the publication entitled King of Infinite Space: Donald Coxeter, the Man Who Saved Geometry. Try to face the book King of Infinite Space: Donald Coxeter, the Man Who Saved Geometry as your close friend. It means that it can for being your friend when you sense alone and beside associated with course make you smarter than in the past. Yeah, it is very fortunated for you. The book makes you a lot more confidence because you can know almost everything by the book. So , let's make new experience in addition to knowledge with this book.

Clair Lemanski:

What do you think about book? It is just for students since they're still students or it for all people in the world, the particular best subject for that? Only you can be answered for that question above. Every person has various personality and hobby for each and every other. Don't to be pressured someone or something that they don't wish do that. You must know how great in addition to important the book King of Infinite Space: Donald Coxeter, the Man Who Saved Geometry. All type of book can you see on many options. You can look for the internet solutions or other social media.

Richard Broderick:

Information is provisions for anyone to get better life, information nowadays can get by anyone in everywhere. The information can be a know-how or any news even restricted. What people must be consider whenever those information which is inside former life are hard to be find than now could be taking seriously which one is acceptable to believe or which one the resource are convinced. If you have the unstable resource then you get it as your main information we will see huge disadvantage for you. All those possibilities will not happen throughout you if you take King of Infinite Space: Donald Coxeter, the Man Who Saved Geometry as your daily resource information.

Dallas Richardson:

Precisely why? Because this King of Infinite Space: Donald Coxeter, the Man Who Saved Geometry is an unordinary book that the inside of the book waiting for you to snap the idea but latter it will distress you with the secret the item inside. Reading this book next to it was fantastic author who also write the book in such amazing way makes the content inside of easier to understand, entertaining technique but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this anymore or you going to regret it. This unique book will give you a lot of gains than the other book possess such as help improving your ability and your critical thinking method. So , still want to postpone having that book? If I were being you I will go to the e-book store hurriedly.
