Credentialed to Destroy: How and Why Education Became a Weapon Robin S Eubanks

Credentialed to Destroy: How and Why Education Became a Weapon provides the necessary information to confront what is intended to be a wholesale transformation of the US economy and our society without any of our consent. Author and attorney Robin S. Eubanks lays out what was supposed to remain hidden until it was too late to stop the sought 'irreversible change.' She tells us: If Education is a means to an End, what is the Real Vision for Transformation? --How the reading and math wars were never about how to teach --How the new Common Core is actually not about content --Why the logical, rational mind is the real target of education reforms --Why higher ed had to be changed to push equity in credentials as the goal --What's wrong with a 21st Century Skills focus --Why the classroom objective keeps coming back to the student's values, attitudes, and beliefs Finally, Credentialed to Destroy provides repeated proof of how education was seen by the Soviets as their favorite weapon against the West during the Cold War. This book details extensive evidence from the 80s that education became an invisible and purposeful means of restructuring the West, especially the US, away from individualism and capitalism towards a more collectivist orientation in the future. A goal that guides the actual Common Core implementation and planned economic transformation described in detail in troubling quotes that lay out a global push. This book gives everyone the information they will need going forward to appreciate what has changed in education, when, how, and for what purposes. Precisely the information necessary to actually be internationally competitive and prosperous in the 21st Century.
