From Book 1: Into The Darkness is the Goodreads 2013 winner for best EMP novel. Dylan Smith was over a thousand miles from home when an enormous coronal mass ejection collided with Earth. The ensuing electromagnetic pulse devastated the power grids of the world and sensitive electronic equipment. Dylan, and a small group of men, must devise a way to return home through a world in which modern technology was abruptly stripped away. During their long journey home, they witness the civilized world transcend into anarchy and are forced to struggle with the morality of the decisions they make to survive.
