**Natural Landscaping: Designing With Native Plant Communities** John Diekelmann, Robert M. Schuster In response to demand from landscape architects and home gardeners, *Natural Landscaping* returns to print in an updated and expanded second edition. It is unique in its focus on plant communities; it approaches landscape design as the establishment of natural ecosystems, rather than mere planting of specimens.

Emphasizing the natural landscapes of the northeastern United States and eastern Canada, this book o reviews landscaping principles and techniques

- o introduces native plant species for grasslands, forests, edge areas, and small wetlands
- o illustrates how to evaluate a site and plan for visual effect and maintenance
- o presents the issues involved in restoring bogs, ponds, and other wetlands
- o offers practical advice on reducing chemical use while still combating invasive plants
- o addresses social, legal, design, and planting problems often encountered on residential sites
- o discusses natural landscaping for public parklands, civic buildings, school grounds, and corporate properties
