Workbook to Accompany the Second Edition of Donald M. Ayers's English Words from Latin and Greek Elements Helena Dettmer, Marcia H. Lindgren

Developed at the University of Iowa, the Workbook, like the text, is in wide use in both colleges and high schools. It provides practice with Latin and Greek roots introduced in the text and with English words derived from these elements. While the exercises in the text present English words in sentences, the Workbook complements the text by dealing almost exclusively with words out of context, thereby introducing a greater number of words. Exercises take a variety of forms—short answer, matching, multiple choice, word analysis, fill-in-the-blank, and true/false—to give teachers greater flexibility in supplementing instruction. Pages are perforated for test or homework use.
