A startling amalgam of Zulu war cry and imperial and urban myth, of borrowed tips on health and hygiene, and object lessons in woodcraft, Robert Baden Powell's Scouting for boys 1908 is the original blueprint and self instructor of the Boy Scout movement. An all-time bestseller in the English-speaking world, second only to the Bible, this primer of 'yarns and pictures' constitutes probably the most influential manual for youth ever published. Yet the book is at the same time a roughly composed hodgepodge of jingoist lore and tracker legend, padded with lengthy quotations from adventure fiction and B.-P.s own autobiography, and seemed through with the multiple anxieties of the next time: fears of degeneration, concerns about masculinity and self-restraint, invasion paranoia.
