The Tumbleweed DIY Book of Backyard Sheds and Tiny Houses: Build your own guest cottage, writing studio, home office, craft workshop, or personal retreat Jay Shafer

These tiny backyard buildings, no more than 110 square feet, can become guest cottages, art or writing studios, home offices, and craft workshops. For the DIY enthusiast, here are photos, elevation drawings, and door/window schedules for six Tumbleweed box bungalows, plus an extensive how-to set of instructions that can be applied to any backyard building project. What they are not is home-center garden sheds. Though conventionally built, these handsome little buildings have real doors, windows, and skylights with interesting and practical details throughout. Paint them and finish them to suit your tastes and needs. The term "Box Bungalow" is a trademark of Tumbleweed Tiny House Corp. It refers to their idea of packaging these backyard buildings on a flat skid, for weekend DIY assembly. They'll also sell a prefab building for delivery to your prepared site. They'll also sell complete sets of plans for any of the houses shown in this book.
