'Land Law Reform' examines the wide-spread efforts to reform land law in developing countries and countries in transition, drawing in particular upon the experience of the World Bank and the Rural Development Institute. The book considers the role of land law reform in the development process and analyzes how the World Bank has sought to support these legal changes in client countries. It reviews the experience with reform of laws affecting land access and rights in achieving gender equity, identifies opportunities for reinforcing environmentally sustainable development through land law reform, and examines from both growth and poverty alleviation perspectives the effectiveness of reforms to formalize property rights and liberalize land markets. The concluding chapter recommends some basic priorities for land law reforms.
